

# Extract ⇨ Produce ⇨ Sell ⇨ Throw Away

images excerpted from <[www.storyofstuff.com](http://www.storyofstuff.com)>

1. Big business takes resources from poor countries.

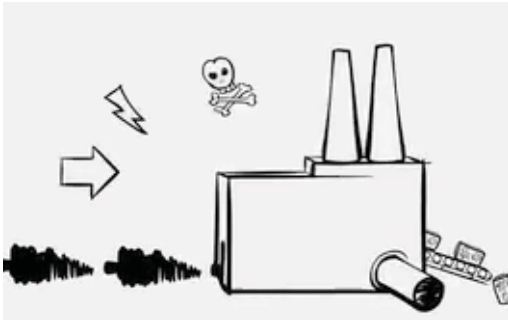

---

---

---

---

---

2. Resources go to factories where they are made into things.

---

---

---

---

---

3. The things go to stores where people buy them.

---

---

---

---

---

4. When people are done using the things, we throw them away.

---

---

---

---

---

Discuss these pictures. Write about them in the space provided. Think about whether this model of extracting, producing, selling, and throwing away is *sustainable* or *unsustainable*.
