

Who Will Protect Essential Workers?

<https://protectnyheroes.org/>

Dear New York,

In March 2020, we all tried to stop the spread of Covid-19. Some people stayed home from work.

Some of us went to work. We showed up early and we went home late. We took the risk of getting Covid. We worried we would bring Covid home to our families.

As essential workers, people called us heroes. We risked our lives to take care of you, New York.

New York, we took care of you. Now will you take care of us?
